

PIPS 4 IDIOTS CASE STUDY & FAQ

PIPS 4 IDIOTS System Case Study: Thomas XXXXX (Thomas has requested his last name remain anonymous)

PIPS 4 IDIOTS Homepage → <http://www.Pips4Idiots.com>

Disclaimer: Mr. Thomas has supplied us with this testimonial/case study chronicling his experiences with the PIPS 4 IDIOTS System. Neither he nor the developers of PIPS 4 IDIOTS are liable for any content contained here within. Past performance is not indicative of future performance and as with all trading, Forex trading is risky and should be approached cautiously.

Now that we have the legal jargon out of the way...Let's begin...

Here is an open letter from Thomas to anyone interested in the PIPS 4 IDIOTS System:

"Hello everyone!

My name is Thomas, I am a down-to-earth, straightforward, god-fearing guy just like everyone else here. Like the vast majority of the people who are probably reading this, I work hard on a daily basis to make a living and support my family. I have always been interested in trading forex and have tried in the past, but haven't had much success. However, all that changed when I got the opportunity to try out the PIPS 4 IDIOTS System.

Before I get started, I wanted to apologize if my English isn't up to par. I'm not the best writer out there. Nonetheless, Joe and his team wanted me to share my experiences with PIPS 4 IDIOTS so that those interested in the PIPS 4 IDIOTS System can get a first hand glimpse of the system from someone who has been there, done that, and tried it out completely.

A little about me – I have a beautiful wife and 3 amazing kids, one is four, another is seven, and the oldest is nine. I have been blessed with good health, a good family, and a decent “getting-by, making the ends meet” wage. However, I don’t have the financial freedom that I would like to have so that my family can live at least a middle-class life. For a living, I drive intrastate (within the state) trucks; I could have driven interstate trucks but then I’d be away from my family for too long.

Anyhow, I had a few thousand saved up several years ago, and at that time, I invested 50% in stocks and 50% in Forex. The stocks did ok, didn’t make or lose much. However, I got annihilated in Forex trading. I basically lost my entire investment of \$2500. During the same time, I had also subscribed to many forex trading tips lists, one being Joe’s. Thank god for that.

Then recently (6 months ago), when I was going through my junk mail, something caught my attention. I saw that a guy named Joe had e-mailed his list, seeing if anyone was interested in testing out his new PIPS 4 IDIOTS system. At this point, I didn’t really know much about him, but I thought I’d at least check it out. Honestly, I thought it would be some lame sales pitch or him trying to sell some junk to me.

Surprisingly, it was neither. He told me that his team and him were planning on launching a “Collective Adaptive Automated Forex Trading Robot” (that went over my head..lol) in late 2010 and that he needed beta-testers. I was hesitant at first, but then I was like “What do I have to lose?” I was skeptical so I kept asking questions and he kept answering. We also had a conversation on the phone, as he probably felt that I would be a good beta-tester candidate. It was a really motivational conversation and somehow (I don’t know how...), but by the end of the conversation I was convinced to give Forex Trading another go. He had shown me backtests, but more importantly, live forex trading statements with real money accounts. I even got a chance to login to his accounts! I saw trades being placed, executed, and raking in tons of profit. I thought to myself...why not...it’s worth a try.

He explained to me that this was an automated forex trading robot. Initially, I was like “What the hell is that?” but Joe explained it all to me. Basically, it’s an easy plug and play system that earns money on autopilot. You download it and follow the simple step-by-step instructions (They have an entire PDF guide with pictures and every step detailed as well as an installation video).

Anyhow, so Joe gave me access to the Members Area. I logged in....Holding my breath....

I was stunned at what I saw. Joe and his team have done a phenomenal job in organizing the Members Area. They have thought of and covered everything that a customer may need. Some of the things they have :

1. A complete manual to the PIPS 4 IDIOTS System that explains in vivid thorough details with pictures how to install and get started with the PIPS 4 IDIOTS System. Fully comprehensive.
2. An explanation of the foundations behind the PIPS 4 IDIOTS System – how it got started, the initial strategy, etc.
3. The PIPS 4 IDIOTS System file itself.
4. A beginner’s guide to Forex trading with an additional bonus Forex strategy. This guide was extremely beneficial to me. I knew a little bit about forex trading, as I had tried it in the past, but

this guide was an eye-opener. I realized what I was doing wrong and what I could do better. Although it doesn't cover everything (no book really can..), it's a great read.

5. Risk Management Guide. I always sucked at this which is why I lost in forex initially when I tried it few years back. This guide taught me how to calculate risk and manage it and minimize it, a critical skill to have in forex trading. Another great read.
6. Balancing Emotions Guide. A lot of people, including myself, don't succeed in forex because they don't manage their emotions and stay objective. This guide helped me to stay focused and objective while balancing my emotions.
7. A checklist and bullet point list of the keys to being a successful and disciplined trader.
8. **This bonus blew my mind away...Joe and his team also gave away a bonus EA (forex trading robot)...this one although not as good as PIPS 4 IDIOTS still made me small consistent returns...money is money so not bad**
9. **FINALLY....A lot of products have really crappy support. Here's where Joe excels. They have implemented a LIVE CHAT SUPPORT feature in their members' area whereby you can talk to technicians live for support. This just sold me. I was like WOW.**

So I went through everything and was quite satisfied, now it was off to the main course. I downloaded and installed the PIPS 4 IDIOTS System and was up and running within 10 minutes...They claim 5 minutes...but it took me 10 but that's no biggie.

I was told that I would start seeing trades really soon after I had it running...Well, that didn't happen...not exactly...It took several hours before the robot entered its first trade. I didn't really care as long as it made me profits...

The trade closed an hour later for a profit of approximately \$40. Not bad for the first trade I told myself...I thought to myself...lets see if it's consistent and keeps happening.

To my surprise and disbelief, PIPS 4 IDIOTS did just what Joe had told me it would do....make money on autopilot without any human intervention. At the end of three days of trading, I had 18 winning trades and one losing trade. The winning trades yielded me a profit of about \$536 and the losing trade was - \$45, giving me a NET PROFIT of \$491 in 3 days FLAT on a \$2500 investment...I was just speechless...

That's over 4-5 times the cost of the product made back in 3 days....what a bargain deal and what a quality product. Besides thanking Joe a 100x, the next thing I did was look around and research more into Forex EA/Robots, as I still didn't know too much about it, since all I did was plug and play.

I also tried different forex robots to see how they would perform...nothing really matched up...couple came close but then they had big losses..nothing like steady profits and occasional minor losses like PIPS 4 IDIOTS. The PIPS 4 IDIOTS System was pretty unique...here are some reasons why:

- Their system is extremely accurate at pinpointing entry and exit points on EURUSD, USDCAD, USDJPY, and most major currencies. Joe said that this is because of the collective adaptive technology. I still don't know what that means...doesn't really matter...I'm only concerned with the profits.

- The system is completely automatic and hands free. I can be out driving a truck full-time and the robot is making money for me on autopilot.
- They also backup everything they say by live real money accounts' results
- It doesn't require any forex experience, installs really quickly and shows results within hours
- Best of all, what I like is their dedication to customer service. They give a 60 Day Money Back Guarantee to their customers as well as access to their email as well as Live Chat Support through their members' area. Constant updates are also released to tweak it more and more.

So overall, to Joe, I'm quite satisfied. It's been a few months since I have been using the PIPS 4 IDIOTS System and I have nothing but raving reviews. It has worked amazing well so far for me and my account has quadrupled within months...where can you get returns like that? I haven't become a millionaire overnight or anything...that's not really possible...but I am on my way to financial freedom so that I can support my family and their needs better. I am eternally grateful to Joe and his team for giving me this opportunity. I thank you guys from the bottom of my heart.

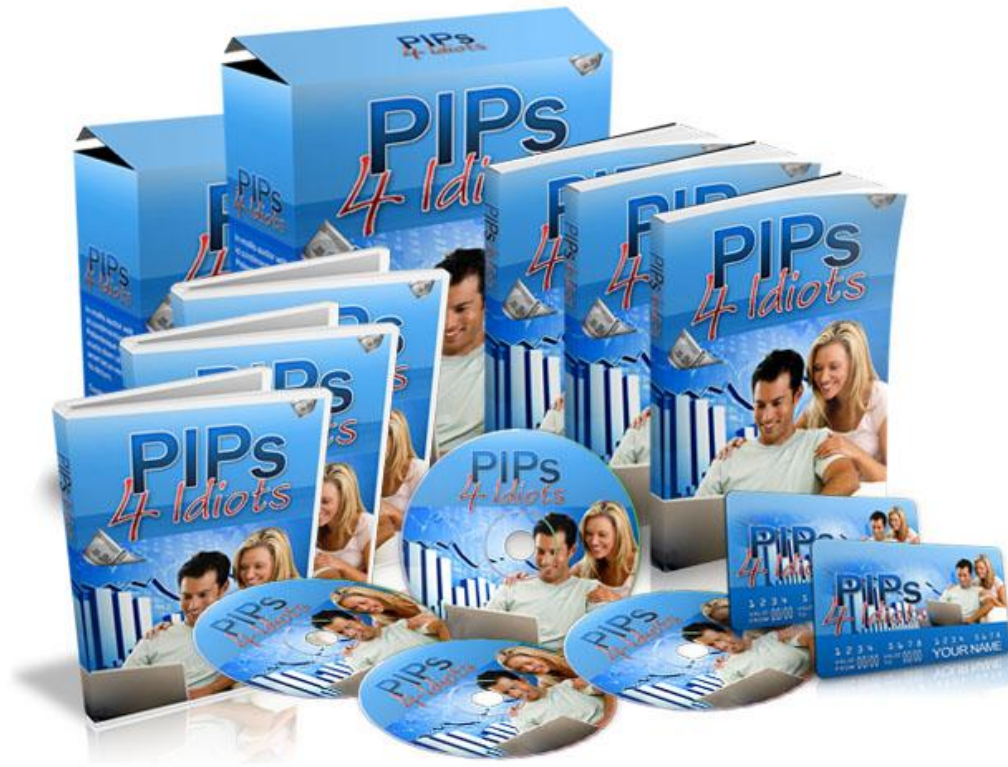

So my final advice to anyone interested in this system, WHAT ARE YOU WAITING FOR? Try it out, use it, it gives results, no hype, no bs, straight up results...In the worst case scenario (which I highly doubt) you are not satisfied, then you can refund it for your full money back within 60 days...You have absolutely nothing to lose!

Now, you are probably wondering...Why did I write all of this? What do I get out of it? Do I have all the time in the world to do this? Am I really a super nice guy? Am I sucking up to Joe and his team? The answer is NO to all those questions. I wrote this to show my gratitude to Joe and his team for allowing me to achieve the financial freedom that I always wanted for myself and my family. I also wrote it to encourage everyone who is reading this to make the right decision and try out the PIPS 4 IDIOTS System. Even if I am completely out of it, you have nothing to lose, but a little bit of your time. It's a 100% 60 Day Money Back Guarantee.

Hope I made your decision clearer.

Happy Trading Everyone...

Thomas

Frequently Asked Questions

PIPS 4 IDIOTS Homepage → <http://www.PIPS4IDIOTS.com>

Over the past few days, we have received many questions about our system so here are the most frequently asked questions:

Q: What is the PIPS 4 IDIOTS System in simple terms? What does it do? I'm lost..

1. PIPS 4 IDIOTS is an automated forex trading robot. It will trade on your brokerage account automatically without any intervention. Once you set it up (5 minutes or so), it will run on its own. PIPS 4 IDIOTS, as we like to call it, is a collective adaptive robot, which means that it has a built in database of common forex strategies used by a majority of forex traders out there. The robot works against these strategies and the Market to generate steady consistent profits. Additionally, we have applied a trading strategy used by our veteran forex traders over the years to earn high returns to the PIPS 4 IDIOTS System. Not only that, but the Pips 4 Idiots System will learn from its mistakes and the mistakes of other traders using the system to grow even smarter with every trade. Our in-house traders are sending daily automated updates to the EA as well to

make it nothing short but perfect pinpoint accuracy. This combination makes PIPS 4 IDIOTS a very powerful system to have. The robot adapts to ANY Market condition and will follow any Market trend to exploit it to generate a profit. There hasn't been a robot made so far that can do this. It's much more involved than that, but for a simple explanation that covers the highlights.

Q: I don't know anything about forex...how hard is it to open a brokerage account and does it cost anything? Is there a minimum deposit requirement?

1. It couldn't be easier...We will recommend the brokers you can use and even guide you STEP-BY-STEP on how to get started. Any meta trader 4 platform based broker would work. Opening an account is completely free of cost and unlike stock brokerage accounts, there are no transaction fees per trade in the form a flat commission. Most forex brokers will allow you to start with as little as \$1.
2. Our members area is extremely comprehensive and every step is detailed in a PDF file as well as with an accompanying video. And if you still have questions, we have a live chat support available in the members area as well as fast e-mail support.

Q: Does the PIPS 4 IDIOTS System work on 4 digit or 5 digit brokers?

1. It works on both. We have included a settings file for both 4 and 5 digit brokers.

Q: Installing the PIPS 4 IDIOTS System is probably going to be hell, right?

1. QUITE THE CONTRARY. It couldn't be easier. It will take you a max of 5-10 minutes to install it. We have made it so that everything is plug and play. The steps are extremely easy, but nonetheless, we have still made a PDF Manual that explains every step with nice pictures. There is also a video that shows how to do everything. Extremely easy.

Q: Why are you selling the PIPS 4 IDIOTS System if it makes so much money? Do you use it?

1. Absolutely, we use it every single day. You can see some of our live statements and accounts on our site. Those are only a few of our numerous accounts of various sizes. The forex Market is so HUGE so no matter how many people trade using the PIPS 4 IDIOTS, profitability will remain the same – so why not give other traders the opportunity and build up some good karma? Traders make money (by trading with PIPS 4 IDIOTS) and we make money by showing them how to use the PIPS 4 IDIOTS System. Straightforward and simple. Everyone wins. We then use the profits made from selling PIPS 4 IDIOTS and invest them into our live accounts.
2. Also, we want to prove to the forex Market, traders, as well as ourselves that a truly profitable robot can be developed. A lot of robots and other "get rich schemes" pop up every other day on the internet and give false hopes and promises to customers looking to earn a decent living. We want to change that. By providing a quality product and focusing on customer support and satisfaction, we believe that we can have a product that customers will love and one that we can proudly say was created by us.

Q: Do I have to risk money to try your PIPS 4 IDIOTS System?

1. Absolutely not! We want to put our money where our mouth is. That's why we are offering an unconditional 60 Day Money Back Guarantee. If you are not satisfied with the PIPS 4 IDIOTS, return it within 60 days for a full refund, no questions asked.
2. The beauty is that you can try out our system risk-free on a demo account to validate the results we claim PIPS 4 IDIOTS generates. You can open a demo account with any broker. Trade with a demo account until you feel comfortable going live.
3. Truly risk-free.

Q: So your system is effective because it makes steady consistent profits no matter what Market trends are?

1. Yes, exactly. A lot of systems fail because they are designed to be greedy and go for high profits per trade, but that also increases risks several folds. E.g. it's better to make small steady gains of \$10-\$100 per trade and risk losing few dollars at a time than try to get several hundred dollars per trade and then lose several hundred, if not thousands per trade.
2. Regardless of the Market or economic conditions, PIPS 4 IDIOTS keeps making steady consistent profits. If the Market is going down, PIPS 4 IDIOTS makes money on sell orders. If it's going up, it makes money on buy orders. Either way, it profits.

Q: Do I need to know anything about forex or have any prior experience?

1. Not at all. We have designed everything in such a way that even someone who doesn't have the slightest clue what forex is can use the system to generate profits. It's probably easier than most of the things you have done so far. If you can click and download a file, that's all you need. It's that easy. No Joke.

Q: Do you guarantee I'll make money?

1. We can't guarantee that you'll make money as that would be illegal. However, if you don't make money with our robot, you can return it for a no-hassle 60 day money back guarantee. Try it on a demo account until you are satisfied, and remember we are going for small steady gains which equates to low risk and high profits in the long run.

Q: Do I need to do anything at all? Does the robot need to trade everyday to make money?

1. You don't have to do anything whatsoever. Simply leave your computer on and PIPS 4 IDIOTS will do the trading for you. PIPS 4 IDIOTS will decide when to enter a trade and when to exit a trade depending on the Market conditions at that time. Some days, it may not trade and some days it may trade extensively.

Q: Most other trading systems I have tried didn't really work. Why will yours?

1. That's to be expected. A majority of the systems out there are slapped up on a page with a rushed design and a sales page that shows nothing. They are incapable of trading live accounts. PIPS 4 IDIOTS's development has been overseen by a TEAM of veteran forex traders and a TEAM of developers. Our complex revolutionary collective adaptive algorithm generates profit no matter what. PIPS 4 IDIOTS has truly begun a new era in forex trading.

Q: What does the PIPS 4 IDIOTS System include?

1. Make sure to read the other FAQs, but briefly, once you purchase, you will get access to our exclusive Members Only Area. Here we have detailed tutorials, guides, videos, etc. to ensure that everything is as easy as possible for you. Once you have absorbed all the materials, you are ready to get started with the robot, and just watch the money roll in.

Q: Can anyone do this?

1. Yes, anyone can do this whether you have forex experience or not. If you can simply use the internet and download a file, this system is for you. If you are reading this right now, you are already more than capable of handling this system.
2. All you need is a computer and the ability to follow few simple step-by-step instructions in a written or video format for 5 minutes, and you are set.
3. This opportunity is available for everyone. It's a rock solid way of earning a decent living. Forex is a huge Market and there is more than enough profits to go around. Just check out the live statements and video testimonials.
4. All you need is the WILL TO SUCCEED. That's all that matters. Treat this the way you would treat your own business and you will not only succeed, but achieve excellence. Chase excellence, and success will follow.

Q: Do I need to have my computer turned on all the time?

1. You have two options:
 - a. You can just keep your computer on and the robot running 24/7 and generating consistent returns throughout the day OR
 - b. You can host your robot online and then not worry about having to leave your computer on. We have more information and detailed instructions in the members' area on how to do this. It's easy, takes a few more minutes.

Q: What about support? Most of these products usually lack support.

1. That's where we strive. We realized this fact, which is why we have implemented a LIVE CHAT SUPPORT SYSTEM in our members' area. Members will also have access to our personal email for rapid answers to questions and concerns. With a full support staff around the clock to monitor any questions, support will be nothing short but perfect.
